

Large Eye Swivels

Size 2

Approximate Size

After years of design, engineering development and the production of millions and millions of swivels the Worth Ball Bearing Swivel continues to set the standard in the tackle industry among OEM fishing tackle manufacturers. Our swivels feature highly polished, precision stainless steel ball bearings, in conjunction with tapered bearing surfaces that combine for a smooth, almost effortless spinning action.

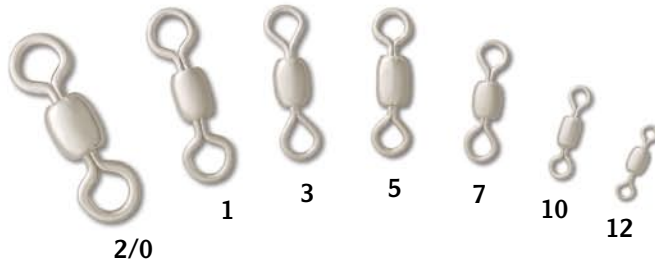

The sleek outer case and ribbed inner jacket design will give our Worth Ball Bearing Swivel the strength and durability you need for all spinnerbait applications. In addition, the special stem design reduces friction and lock-up. We suggest attaching our #2½ fine nickel split ring. This ring was especially designed to accommodate this ball bearing swivel for perfect balance and performance.

Approximate Size

These swivels are high quality American made products and should not be confused with inferior foreign imports. They are manufactured on precision machinery insuring a smooth and precise swivel action to prevent kinking and twisting of the line. Many sizes are available for all types of fishing and they are offered in brass or nickel-plated finish.
