

Heavy Weight Tackle

Heavy Duty Industrial Wire Former

You have been asking and we have heard you. The Industrial Wire Former has now been "beefed" up to handle the .051 wires. The machine still offers the same options as the machine **shown on page 95**, but in the .051 wires. If you would like to see the machine in action, please ask for a DVD.

Cost Per Thousand	\$439.30
Nickel	97655
Cost Per Thousand	\$459.70

Approximate Size

To go with the Magnum blades on pages 26 & 27, you need bigger components to complete the big silhouette for today's larger baits. Weighing in at 3/8 oz and 1.318" long, these precision turned bodies fill the void that allows you to use less components on your baits. Made from premium brass, they are available in either polish brass or nickel-plated brass.

Packaging: Bulk, Polybagged
