

Roto blades

5/8" x 1/4"

15/16" x 1/2"

Approximate Size

1" x 5/8"

Side View

An unusually effective free-spinning blade, the Roto blade is often used ahead of a weighted treble to which a bucktail has been tied or in front of a crawler harness. The solid brass Roto blade defies corrosion and is adaptable for fresh and saltwater use. Available in plain brass or polished and plated finishes.
