The Worth Company
214 Sherman Ave.
Stevens Point, WI 54481 USA

Barb Maslowski has been with the Worth Company for 20 years. She is the friendly voice you hear when you call. Barb also handles Accounts Receivables, so any questions regarding your account, give her a call. Barb's extension is 0 and her email is bmaslow@worthco.com.

Judy Suchowski is one of our Customer Service Representatives. Judy has been with the Worth Company for 33 years. Most of you have talked with Judy over the years, now you can put a face with a voice. Her extension is 231 or email her at judy@worthco.com.

Our newest member to the Customer Service Department is Carmen Berg. Carmen has been with us for 1 year and fits in wonderfully. Her extension is 254 or email her at carmen@worthco.com

Any questions regarding your orders or shipments, give Judy or Carmen a call.

Rollie Vallin is our National Sales manager. Rollie has been with us for 4 years and has been contacting a number of you to say hi and see how we can help you. If you have any questions, give him a call. His extension is 225 or email him at rolliev@worthco.com.

Denny Rosenthal is our Director of Customer Service & International Sales. Denny has been with us for 10 years and knows most of you in the industry. If you haven't already guessed, she is a "she" and not a "he"! If you have a problem or need a special, give her a call. Denny's extension is 244 or email her at drosenth@worthco.com.

A New Look For the Key Ring Catalog

We have made a few changes to the Key Ring catalog to help make it more user friendly. Charts have been expanded to two or more pages to make them easier to read. All products now show inches and millimeters to help you decide which ring would work best for your application.

If you want to know whom you are talking to, take a look on page 2, we are all there. Always nice to put a face to a voice!

We have added 5 new sizes of stainless steel key rings. These are listed under the Lightweight Key Rings sizes 1 – 5. Also, check out the Split Ring Assembly machine on page 22. This machine works with the smaller split rings to help with the ease of assembling your product. Ask for a DVD to see how the machines operate.

Prices have increased around 10%; this is after the material surcharge. Stainless steel rings have increased more since we have not raised our prices in over 4 years and the price of material has gone up 390% over that time. Please remember that we have not changed our catalog prices in 2 ½ years.

At this time, there will not be a surcharge on any rings, however, if raw materials start to increase again, we may need to reinstate the surcharge.

If we do not show the ring size you need, please contact us and let us quote you on that size. We have a full in-house tool department that can make the tooling quickly and efficiently. All rings are made and plated here in Stevens Point, WI, meaning these rings are USA made.

We look forward to working with you this coming year. Any questions, please let us know.

Sincerely,

Rollie Vallin
National Sales Manager
